MEMORANDUM FOR: Project Director  
SUBJECT : System Three Tapes

25X1A9a

25X1A

25X1A

1. Reference is made to your instruction to me regarding [REDACTED]  
[REDACTED] test on System Three tapes as proposed by [REDACTED]

25X1A9a

2. I have talked with [REDACTED] Since his conversation with you, he has explored his idea at greater length with working people in OSI and now is of the opinion, still tentative, that the only way to make an effective test of this is to have a [REDACTED] man cleared and working side by side with those in OSI reading the ELINT tapes.

3. If this is his final conclusion, and he will inform me when possible, then there remain the problems of breaking a man loose from [REDACTED] and getting him cleared.

4. This is an interim report, and I shall pursue the matter as soon as I hear from [REDACTED]
